 - Amiga 1000
 - Amiga 2000
 - 512K memory
 - Keyboard or mouse
-
- Atari ST
 - 512K memory
 - Color or Mono
 - Keyboard or mouse

Getting Started

Here's all you need to start playing *CORRUPTION* right away. Please refer to the manual for more details.

On a MS-DOS Computer

- Boot DOS 2.1 or above, and go to drive A. Type **INSTALL** and press return. Follow the on-screen directions for your hardware or see the explanation below.

Special note for Tandy

Tandy owners will need to upgrade their machine with an EGA card to display graphics since the EGA process differs from the 16-color graphics capabilities that Tandy computers have.

3.5" Disk Users

- *CORRUPTION* is not protected for your convenience and can be transferred to run from a 3.5" disk without any problems.

INSTALL PROGRAM

• Single Floppy Owners

1. Single drive, text version: type **CORRUPTI** and press return.
2. Single drive, 40 column text version: type **CORRUPTI / 4** and press return.
3. Single drive, EGA version without mouse: type **CORRUPTI / G / N** and press return.
4. Single drive, EGA version with mouse: type **CORRUPTI / G** and press return.

• Two Drive Owners

To install *CORRUPTION* for two drives: put disk one in drive A and put disk one in drive B

1. Two drives, text version: type **INSTALL / T A: B:** and press return.
2. Two drives, 40 column text version: type **INSTALL / 4 A: B:** and press return.
3. Two drives, EGA version without mouse: type **INSTALL / G A: B: / N** and press return.
4. Two drives, EGA version with mouse: type **INSTALL / G A: B:** and press return.

- **Hard disk Owners**

1. Hard drive, text version: type **INSTALL / T C:** and press return.
2. Hard drive, 40 column text version: type **INSTALL / 4 C:** and press return.
3. Hard drive, EGA version without mouse: type **INSTALL / G C: / N** and press return.
4. Hard drive, EGA version with mouse: type **INSTALL / G C:** and press return.

On an Amiga 500 & 2000

- Turn on your computer. When you see the Workbench prompt, insert your *CORRUPTION* disk. The game will begin loading.

On an Amiga 1000

- Turn on your computer. When you are prompted, insert your Kickstart 1.2 or higher. When you see the Workbench prompt, remove your Kickstart disk and insert your *CORRUPTION* disk.

On Atari ST

- Turn on your computer with *CORRUPTION* disk in your drive. The game will begin loading.

Customer Service

Warranty

A 90-day warranty applies to all Rainbird Software products. If your disk is defective or damaged within 90 days of purchase, we will replace it free of charge. Return your damaged disk and proof of purchase to the address below. See enclosed manual for more information.

Disk Replacement

Rainbird Software will replace disks that the user damages after the 90-day warranty for a duplicating and handling fee. Return your damaged disk and a check or money order for \$9.95 (made out to Rainbird Software) and mail to the address below.
